

Duncan Fired Snow

Fired Snow

Duncan Fired Snow

Duncan Fired Snow is a dimensional product that produces billowy white texture that simulates snow.

Duncan Fired Snow can be applied up to 3/4-inch thick.

Basic Instructions

1. Stir well to a smooth consistency. Do not add water.
2. Apply heavily to shelf cone 04 bisque. Use a palette knife, brush, sponge, ice cream stick or squeeze bottle. Avoid thin application.
3. Apply over unfired glaze.
4. Fire the shelf cone 06.
5. Clean up with water.
6. Always refer to label instructions for proper application and usage.

Health & Safety

Nontoxic and lead-free.
