## INSTRUCTIONS

1. Using a ruler, trace a 4 inch square onto four paper sheets included in the Watercolor Paper Pack. Cut out with scissors.
2. Paint each tile with a base acrylic color of your choice. While the paint is still wet, center and place a paper square directly onto each of the tile coasters. Press down to smooth out the paper, making sure not to touch the wet acrylic paint. Let the tiles dry completely.
3. Once the paint has completely dried, cover the entire surface of the coasters with a generous coat of Aleene's Glossy Decoupage. Don't forget the bottom and side surfaces!

Tip: To avoid the tile coasters from scratching a surface, use glue to attach a felt fabric square or thin foam square to the bottom of each tile coaster.
