

# Beaker Bash

*Design courtesy of Bisque Imports*

We dare you to find a cuter Toucan. It can't be done!

## MATERIALS

1177 Beaker  
AS959 Duncan Hi-Gloss Sealer  
RAA-5108 Cadmium Yellow  
RAA-5110 Cadmium Red  
RAA-5111 Naphtholene Carmine  
RAA-5114 Dark Ultramarine  
RAA-5120 Mars Black  
RAA-5143 Cerulean Blue

## SUPPLIES

Assorted Royal Aqualon Brushes  
Detail Brush  
Water

## INSTRUCTIONS

1. Lightly wipe ware with a damp sponge to prepare surface for painting.
2. Paint the top section of the tail using Cadmium Yellow. Using the same brush, paint a 1/2" stripe where the beak begins.
3. Mix 1 part Cadmium Red to 2 parts Cadmium Yellow. Then, using this color, paint the feet, the middle section of the tail, and a second 1/2" stripe on the beak following the first yellow stripe.
4. Paint the bottom section of the tail and also a third stripe on the beak using Naphtholene Carmine.
5. Paint the body, except the wings with Dark Ultramarine.
6. Paint the feather on top of the head and the wings using Cerulean Blue.
7. Using Mars Black, paint the remaining end of the beak. Using a detail brush, outline the eyes, leaving a small circle within the black circle white.
8. Finish by painting thin back outlines where the tail, beak, and top feather meet. Paint small accent marks on the feet. Then, accent the wings by painting an outline and then painting swift, thin lines within the outline. Repeat this step on the top feather.
9. Finish your project with a thin coat of Duncan's Hi-Gloss Sealer.
