

Tips & Techniques

Used in combination with Crystals Glaze

- Apply 2-5 coats depending on how dark you want the colors to appear, letting the project dry between coats.
- Courtyard Art Glazes can be applied with a sponge, spritz bottle or brush.
- When **spritzing** on Courtyard Art Glazes, use the spray or mist setting for base coat coverage. For full coverage, spritz on 3-4 coats (lighter colors require more coats).
- To create **detail** over Spritzing, mix 1/2 Concepts color and 1/2 water. Use stream setting on spritz bottle for thin lines of color, spots or drip effects.
- Projects painted with Courtyard Glazes should **not** be dipped before firing.
