French Dimensions™

Tips & Techniques

- Apply French Dimensions with a squeeze bottle, maintaining **steady** pressure.
- French Dimensions can be applied to greenware or bisque.
- For bisque application apply over glaze that has dried or under a glaze. Let French Dimensions dry before glaze application, then stilt and fire to shelf cone 06.
- For a **stained glass** technique, apply to greenware, fire to cone 04, and fill the design with various glaze colors.
- Do **not** touch bottle tip to ware (this may cause the French Dimensions to flatten).
- Use in combination with other glazes for intriguing looks
