

Duncan Overglazes

Tips & Techniques

- Use Duncan **Essence** to clean overglaze brushes so water does not ruin your projects. Use a separate bottle of Essence for each overglaze product.
- Use the **Precious Metals** over fired glaze to add brilliant metallic accents.
- One coat of Precious Metals offers opaque coverage over gloss or matte surfaces.
- Duncan **Mother-of-Pearl** is a translucent overglaze that can be used on any surface.
- Over a gloss glaze, Mother-of-Pearl adds a shiny luster and when applied over a matte glaze, it adds a subtle sheen.
