

Tips & Techniques

- Apply color in a crosshatch pattern to minimize brush marks.
- Color should be applied with smooth, consistent brushstrokes for best results.
- Shimmer Glazes are a **low-fire** glaze family and are not intended for high fire use.
- For full coverage, apply 3 to 4 flowing coats, letting dry between coats.
- Projects painted with Shimmer Glazes should **not** be dipped before firing.
- Shimmer Glazes should be fired to cone 06.
- These glazes are non-toxic and **food safe**, so feel free to use them for dinnerware!
