

2034 Lighted Christmas Tree Pre-Firing Tips

In order for the lights that come with 2034 Lighted Christmas Tree to fit after firing, the holes **must** be cleaned out prior to putting in the kiln.

Here is an example of a light hole that is in need of being cleaned out before firing.
DO NOT FIRE LIKE THIS.

You can clear the excess glaze by simply pushing one of the lights through the hole. If necessary, use a toothpick or other small object to “clean” out holes
