CN384-8 Fruit Punch

## SUPPLIES

Assorted Royal Aqualon Brushes  
Detail Brush  
Painter's Tape  
Pipe Cleaner  
Textured Sponge  
Water

## INSTRUCTIONS

Lightly wipe all pieces with a sponge to prepare for painting.

Berry Basket / Large Bow: 1. Paint the inside lower area of the basket with 3 coats of Light Butternut.

2. Paint the outside lower area of the basket with 3 coats of Bright Butternut.

3. Paint the rim of the basket with 3 coats of Bright Caribbean. Let dry. Paint the bow with 3 coats of Fruit Punch. Accent with a detail brush and Really Red.

Milk Bottle / Cow: 1. Paint a rectangle on one flat surface of the bottle. Use painter's tape to achieve straight edges.

2. Fill in the rectangle shape with 3 coats of Fruit Punch. Once dry, remove painter's tape.

3. Paint the rim of the bottle with 2 coats of Dark Black. Let dry.

4. To paint the cow, paint the nose area and udder with 3 coats of Dark Pink. Use a detail brush and Dark Black to paint spots on the body and around each eye. Use the same color to paint each hoof and nostril. Dot each eye with Bright Caribbean.

Market Egg Crate: 1. Use painter's tape to create stripes on the rim. Paint each unmasked stripe with 3 coats of Bright Caribbean. Once dry, remove painter's tape. Use the tapered end of a paintbrush to touch up any edges.

2. Paint the outside with 3 coats of Bright Caribbean.

3. Paint the inside with 3 coats of Dark Pink. Let dry.

Berry Collander: 1. Paint the inside with 3 coats of Fruit Punch.

2. Paint the outside surface with 3 coats of Light Kiwi. Let dry.

3. Dip a textured sponge into Bright Kiwi. Sponge stripes on the outer surface.

4. With a detail brush and Dark Black, outline each hole on the inside to create the look of seeds. Let dry.

5. Feed a pipe cleaner through any holes that have been covered by paint.

Leave each egg unpainted white.

Once all pieces are complete, dip in Pure Brilliance and fire to Cone 06. After firing, use E-6000 to attach the cow tag-along to the milk bottle and the bow to the berry basket.
