CN062-8 Bright Salsa  
CN253-8 Dark Black

## **INSTRUCTIONS**

1. Lightly wipe ware with a damp sponge to prepare surface for painting.
2. Paint the bottom part of the treat jar with 3 solid coats of Bright Salsa.
3. Paint the lid of the treat jar with 2-3 coats of Dark Black. Leave the bone at the top of the lid unpainted white.
4. With a pencil, sketch out "Got Treats?" in the center of the word bubble. Use a detail brush and Dark Black to trace over and accent each letter. Let dry.
5. Use 2-3 coats of Dark Black to paint a border around the talk bubble. Let dry.
6. Dip each piece in Pure Brilliance and fire to Cone 06.
7. Once fired, use E-6000 to attach the talk bubble to the bottom portion of the treat jar. Secure the talk bubble to the jar surface with tape and remove once the adhesive has dried completely.
