## INSTRUCTIONS

1. Lightly wipe ware with a damp sponge to prepare surface for painting.
2. Paint the entire frame with 2 coats of Orange. Let dry.
3. Cut out various scrapbook paper designs of your choice, and arrange designs on the frame surface until you achieve a desired look.
4. Use a glue stick to secure each paper design to the frame surface. If desired, use other craft supplies - such as patterned washi tape or glitter - to complete your design.
5. Use a foam brush to generously coat the frame surface with an even coat of Collage Pauge. This fast-drying decoupage will instantly seal your cut paper designs to the bisque surface.
6. Allow project to dry for a few hours. Once dry, insert the frame glass into the photo opening then use E-6000 to attach the frame backing.
7. Allow E-6000 to dry for 24 hours. Once dry, complete your picture frame project with a 4" square photo and enjoy!
