

Baby Steps

Design courtesy of Bisque Imports

Create lasting memories with this adorable keepsake!

MATERIALS

GBS-4x6-100-ICE Ice Clear Sheet Glass - 4" x 6"
GO331 Black Outline
GSLAB132 Light Blue Glass Transparent Slab
ST340 1" Running Pliers
ST352 Pistol Grip Glass Cutter
ST540 Thinfire Paper
ST551 1/8 In. Fiberfrax Paper

SUPPLIES

Detail Brush
Portable Glass Fusing Tile (Bisque Tile)
Ruler
Scissors
Water
Water-based Marker

INSTRUCTIONS

1. Place a sheet of Thinfire Paper onto a 7" or larger bisque tile to create a portable glass fusing tile.
2. Position the child's footprints on a sheet of 1/8" Fiberfrax Paper and trace the shape of each footprint with a water-based marker.
3. Cut out each footprint shape and position side-by-side onto the fusing tile. Set aside.
4. Use a ruler to measure out a 4" x 6" rectangle from a Light Blue Transparent Slab. Score each line with a Pistol Grip Glass Cutter, then break along each line with 1" Running Pliers.
5. Using a detail brush and Black Outline paint, customize the Light Blue cut glass with the child's name and age. When using Black Outline paint, ensure each brush stroke is thick and opaque when applied. If needed, apply an additional coat of paint once the initial coat has dried.
6. Place both the 4" x 6" Ice Clear glass and the 4" x 6" Light Blue Transparent glass on top of the footprint cut-outs. Position as desired.
7. Place the portable fusing tile directly into the kiln.
8. Full fuse using the Spectrum segment 6 firing schedule.
9. Once fired, wash off any remaining Fiberfrax paper on the backside of the glass piece. Wipe clean.
