

Color Gradient

Design courtesy of Bisque Imports

In just a few easy steps, create this gorgeous draped project using only glass stringers and Carolina Frit!

MATERIALS

CF100C Clear Transparent Frit - Coarse
GBC10-100 10 In. Circle Clear Transparent
SM96 Mardi Gras Stringers
SP422 Klyr-Fire Glass Glue
SS720 Large Floral Form
ST540 Thinfire Paper

SUPPLIES

Detail Writer Bottle (optional, for glass glue)
Elmer's Gel Glue
Hairspray
Spoon
Toothpick
Tweezers
Water

INSTRUCTIONS

1. Arrange an assortment of rainbow-colored glass stringers in a checkerboard fashion across the clear circle base. Measure and break each stringer using your fingers to achieve desired lengths for each stringer piece.

2. As each stringer is positioned, secure the ends in place with pinpoint amounts of Elmer's gel glue.

TIP: Position one layer of stringers in a rainbow color pattern, then position the second layer of stringer on top using the same color pattern.

3. Once all stringer pieces have been positioned in place, add pinpoint amounts of Klyr-Fire Glass Glue to each intersecting point. Allow project to dry completely.

4. Once project is dry, use a spoon to add a generous layer of coarse Clear Transparent Frit around the project border.

5. Lightly spritz project with hairspray to secure frit in place.

6. Allow project to dry, then contour fuse using the 6-segment firing schedule.

7. Once fired, drape project over the Large Floral Form drape mold.
