

Snow Day

Design courtesy of Bisque Imports

Is there anything sweeter than a sleepy snow day? We think not! With a blank slab as your canvas, create a snowy scene of your own with our Rainbow Dichro Frit!

MATERIALS

DE-OP-810 Lagoon Opal Art
DG-CDF Rainbow Dichro Frit
GBLOC220-76 Dark Green Blocks
GSLAB100 Clear Glass Slab
GSLAB200 Opaque White Glass Slab
GSLAB238-72 Alpine Blue Glass Slab
GSTRIP110.8 Medium Amber Translucent Strips

TOOLS

ST340 1" Running Pliers
ST352 Pistol Grip Glass Cutter
ST356 Wheel Mosaic Cutter
ST540 Thinfire Paper
Cotton Swabs
Elmer's Blue Gel Glue
Nipping Basket
Permanent Marker

Rainbow Dichro Frit gives this project the extra sparkle it deserves!

INSTRUCTIONS

1. With a permanent marker, sketch out several rolling hills on the length of your White Slab.
2. Score and break along your line. We added a second "hill" with the leftover White Slab.
3. Before you glue to your Clear Slab, place your snowy hills on top of the Alpine Blue Glass Slab. Trace the outline onto the slab. Score and break the blue slab, using the opposite side to fill in your sky. Note: Opal Art is easier to cut on the back instead of the textured front side.
4. Attach both the snowy hills and sky to the clear slab with a small amount of Elmer's glue.
5. Now you're ready to create your trees! Trace four or five funky triangles onto your Lagoon Opal Art and Dark Green Blocks.
6. Score and cut the trees, attach them to your piece with glue. Embellish with several layers of different shapes and colors.
7. Create the trunks by nipping off the Medium Amber Translucent Strips. We kept ours to about an inch long, but you could vary the shapes to create tall and short trees.
8. Finish off your piece by sprinkling a generous amount of Rainbow Dichro Frit across your snowy scene.
8. Let Dry. Contour fuse using the 6 segment program provided.
