

# Tree Hugger

## MATERIALS

CF220.76M-20 Dark Green Opalescent Frit - Medium  
 CF223.72F-20 Turquoise Green Opalescent Frit - Fine  
 CF226.74M-20 Amazon Green Opalescent Frit - Medium  
 CF260.72C-20 Yellow Opalescent Frit - Coarse  
 GBS4-100 4 In. Square Clear Transparent  
 GSTRIP211-76 Chocolate Brown Opalescent Strips  
 S56-96 Black Opalescent Stringers  
 ST356 Wheel Mosaic Nipper  
 ST540 Thinfire Paper

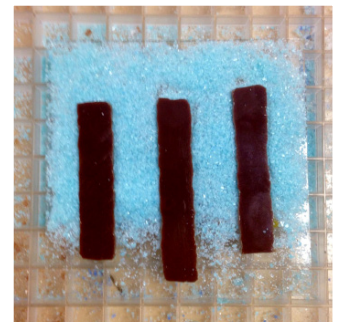

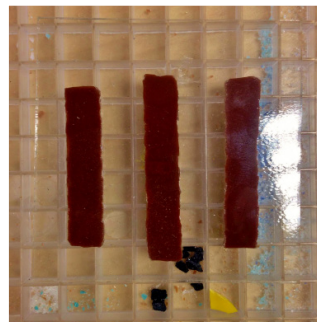

## SUPPLIES

Black Sharpie Marker  
 Elmer's Clear Glue  
 Hairspray  
 Silver Sharpie Marker  
 Small Paintbrush  
 Spoon  
 Toothpick

## INSTRUCTIONS

1. Use a Wheel Mosaic Nipper to nip a Chocolate Brown Opal Strip into 4 tree trunk pieces. Position onto the 4" glass base with pinpoints of Elmer's Clear Gel Glue.
2. Fill in the middle section of the project with fine Turquoise Green Opal Frit to create the sky background. Brush off excess frit from each tree trunk with a paintbrush.
3. Fill in the area along the tree tops with coarse Yellow Opal Frit and medium Amazon Green Opal Frit.
4. Cover the bottom edge with medium Dark Green Opal Frit.
5. Lightly spritz project with hairspray to secure frit in place.
6. Use your hands to break off small Black Opal Stringer pieces. Use pinpoints of Elmer's Glue to attach stringer pieces to each tree trunk.
7. Write the camper's name with a Silver Sharpie on the Thinfire Paper. Position completed project on the Thinfire and transfer to kiln. Contour fuse using the provided firing schedule:

Seg:	Ramp	Temp	Hold
1	300	1000	.30
2	350	1380-1395	.10
3	9999	1050	.60
4	250	800	.10

## Materials Guide

CF220.76M-20 - .5 oz. yields 40 projects  
 CF223.72F-20 - .5 oz. yields 40 projects  
 CF226.74M-20 - .5 oz. yields 40 projects  
 CF260.72C-20 - .5 oz. yields 40 projects  
 GBS4-100 - 1 per project (Case of 6)  
 GSTRIP211-76 - 1 strip yields 20 projects  
 S56-96 - 1 stringer yields approx. 120 projects  
 ST356 - Reusable  
 ST540 - 5" square sheet yields 160 projects

**Price Per Camper : ~\$3.83**
