SUPPLIES

Acrylic Paint (optional)
Latex Gloves
Paintbrush (optional)
Paper Towels
Pencil
Plastic Spoon (to mix grout)
Q-Tips
Small Disposable Bowl (for grout mix)
Water

INSTRUCTIONS

1. Use a pencil to sketch an owl design with 2 feet, 2 wings, a chest, beak, and 2 eyes on the project base.
2. Using Weldbond as adhesive, adhere a Black Smoothie to each eye center.
3. Adhere Icicle Glitter tiles in a ring around each eye center.
4. Using a Wheel Mosaic Nipper to nip tiles into smaller pieces as needed, adhere Sun Ray Glitter tiles to the beak and feet. Using the same color tile, diagonally nip 1 tile in half, then adhere each triangle piece to create each ear tuft.
5. Adhere Aqua Green Smoothies to fill in the owl's head.
6. Adhere Medium Red Smoothies to fill in the chest area.
7. Adhere Medium Blue Smoothies to fill in each wing.
8. Let your mosaic project dry until all tiles are securely in place. Then, follow the grouting instructions below to grout your project using White Grout:

GROUTING INSTRUCTIONS

- a. Pour grout into a disposable bowl.
 - b. Use a plastic spoon to mix in small amounts of water until you achieve an oatmeal consistency.
 - c. Spread grout mix over project surface, allowing the grout to fill in all gaps between the tiles. Wear plastic gloves to keep your hands clean.
 - d. Allow project to dry for 10-15 minutes, then wipe off excess grout with a paper towel.
9. Once grouted, paint the edges with acrylics if desired.
