

# Say Cheese!

## MATERIALS\*

BIM538 Medium Blue Glitter Mosaic Tiles 20 mm  
BIM546 Silver Glitter Mosaic Tiles 20 mm  
BIM590 Orange Smoothies  
BIM70212-0002 White Grout  
BIM72064 Clear Cathedral Nibbles & Bits  
BIM8-50030 Weldbond 101 oz.  
BIM8009 Square Plaque - Sm

## SUPPLIES

Acrylic Paint (optional)  
Decoupage (optional)  
Glue Stick  
Laminated or Printed Photo  
Latex Gloves  
Paintbrush or Foam Brush  
Paper Towels  
Plastic Spoon (to mix grout)  
Q-Tips  
Toothpick  
Scissors  
Small Disposable Bowl (for grout mix)  
Water

## INSTRUCTIONS

1. Attach your printed or laminated photo (approx. 3" square) to the mosaic base with a glue stick. If using a printed photo, prevent ink from bleeding by decoupageing the photo to the base prior to adding mosaic tiles.
2. Using a toothpick to apply corner pinpoints of Weldbond to each tile, adhere an assortment of Clear Cathedral Nibbles & Bits over the photo area.
3. Around the photo center, alternate adhering Medium Blue and Silver Glitter tiles - positioned like diamonds - to create the checkered border.
4. Fill in the remaining gaps around the project border with Orange Smoothies.
5. Let your mosaic project dry until all tiles are securely in place. Then, follow the grouting instructions below to grout your project using White Grout:

### GROUTING INSTRUCTIONS

- a. Pour grout into a disposable bowl.
  - b. Use a plastic spoon to mix in small amounts of water until you achieve an oatmeal consistency.
  - c. Spread grout mix over project surface, allowing the grout to fill in all gaps between the tiles. Wear plastic gloves to keep your hands clean.
  - d. Allow project to dry for 10-15 minutes, then wipe off excess grout with a paper towel.
6. Once grouted, paint the edges with acrylics if desired.

**\*This kit includes enough materials and supplies needed to create 50 projects. Let your campers get creative with all available materials to create their own unique project!**

**Avg. Price Per Camper : \$5.50**
