

# Contemporary Blooms

*Design courtesy of Bisque Imports*

Combine multiple techniques to create this floral beauty!

## MATERIALS

303 Curvy Charger Plate  
CN052-8 Bright Tangerine  
CN302-8 Bright Caribbean  
CN313-8 Dark Ginger  
CN384-8 Fruit Punch  
CN512-8 Green Apple  
FD271 French Kiwi  
FD274 Light Pink  
GA20 Glaze Awayz  
SARALRED Saral Transfer Paper

## SUPPLIES

Assorted Paint Brushes  
Detail Brush  
Pen  
Pin  
Printed Templates  
Scissors  
Water

## INSTRUCTIONS

1. Lightly wipe ware with a damp sponge to prepare surface for painting.
2. In the center of plate, place a sheet of Saral Transfer Paper, colored side down. Place word art template directly on top, then use a pen to trace design. Remove template and Saral paper to reveal the transferred design.
3. Using the template provided, repeat step #2 to transfer an assortment of floral designs on the plate rim.
4. Trace over and fill in the word art design with Glaze Awayz liquid latex. Allow 2-3 minutes of drying time before continuing onto next step.
5. Use a large, damp brush to dilute Dark Ginger on your palette. Brush on 1-2 coats of the color wash over the entire plate. Let dry.
6. Using a pin or the tapered end of a paintbrush, gently lift up the liquid latex design.
- Optional: Rather than using Glaze Awayz to create the masked work art design, you can also choose to use the sgraffito technique. Once the color wash background has been applied and has dried completely, scratch out the paint within each letter.
7. On the plate rim, trace over each flower with Light Pink French Dimensions. Trace over each stem and each leaf with French Kiwi. Let dry.
8. Pour Bright Caribbean onto your palette. To achieve a watercolor effect, first add a drop of color to one flower petal, towards the center. Dip your paintbrush into water, then return to flower petal. Use the water to pull the color outwards. Repeat until each petal is painted.
9. Repeat step #8 and step #9 to paint two additional flowers, or as desired. Repeat, again, using Bright Tangerine to paint additional flowers.
10. To paint each rose, apply the same watercolor technique using Fruit Punch.
11. Continue using this watercolor technique to fill in each leaf with Green Apple. Allow project to dry completely.
12. Dip in Pure Brilliance and fire to Cone 06.
