

Metallic Drip Vase

Design courtesy of Bisque Imports

Give your pieces a muted metallic sheen with Colorobbia metallic glazes! Combine with Fairy Dust glazes for an instant statement piece.

MATERIALS

663 Artisan Planter
AIA500-F6 Elite Fan 6
HC0004D-1 Lead Free Super Clear Dipping Glaze - 1 Gal
HC0219 Colorobbia Metallic Silver Glaze - 16 oz.
HSS103 Raspberry Delight
HSS104 Midas Gold
HSS105 Amber Sparks

SUPPLIES

Assorted Paintbrushes
Water

INSTRUCTIONS

1. Lightly wipe ware with a damp sponge to prepare surface for painting.
2. Paint around the top edge of the vase with 1 thick coat of Amber Sparks. Directly below, paint the center vase area with 1 coat of Raspberry Delight. Use a large, damp fan brush to blend the two colors together where they meet. Repeat this process until 3-4 coats have been applied. Let dry.
3. Paint the bottom, unpainted area and bottom surface of the vase with 3-4 solid coats of Metallic Silver glaze. Let dry.
4. Paint the inside and rim of the vase with 3-4 coats of Midas Gold. Let dry.
5. Once dry, use a fan brush to dip and drip Colorobbia Lead Free Super Clear Dipping Glaze down the vase, starting from the top rim of the vase. Allow the drips to fall to the bottom of the vase in concentrated areas.
6. Repeat step #5 to drip the clear glaze starting at the point where the Metallic glaze meets the Raspberry Swirl.
7. Allow project to fully dry, then fire project to Cone 06.
