INSTRUCTIONS

1. Lightly wipe ware with a damp sponge to prepare surface for painting.
2. Tape off the inside rectangle of the tray. Next, place reinforcement stickers in straight horizontal lines. We left about a half inch in between each row.
3. Using three solid coats of the Green Apple, paint the outside and back of the tray. Be sure to leave the middle inside rectangle of the tray unpainted.
4. While tray is drying, sketch three abstract dandelion designs on the shot glasses.
5. Paint dandelions Neon Red. Outline each flower with Dark Black and add details such as small lines or dots.
6. Gently remove the stickers from the tray with a straight pin. Add tiny Dark Black dots to create accents.
7. Dip in Pure Brilliance and fire to Cone 06.
