1. Lightly wipe ware with a damp sponge to prepare surface for painting.
2. Water down Dark Black and apply a light wash on mug. Be sure to cover over skull, and feel free to wash over the band across the top and bottom as well.
3. Wet sponge and wipe off skull, leaving some residue of Dark Black behind. This will give the skull a distressed look.
4. Using the Royal Soft Grip Detail Brush, paint the band around the top and bottom of the barrel with three solid coats of Really Red. Paint the handle of the sword Really Red as well.
5. Paint the sword blade Light Grey, and create accents with Dark Black.
6. Paint the inside of the mug and the grip on the sword with Bright Saffron.
7. Let dry. Dip in Pure Brilliance and fire to Cone 06.
